

DESCRIPTION AND RATING

12CU5 Beam Pentode. Identical to the 6CU5 except for the following ratings:

Heater Voltage, AC or DC	12.6	Volts
Heater Current	0.6 ±6%	Amperes
Heater Warm-up Time*11	Seconds

* The time required for the voltage across the heater to reach 80 percent of its rated value after applying 4 times rated heater voltage to a circuit consisting of the tube heater in series with a resistance equal to 3 times the rated heater voltage divided by the rated heater current.

Refer to the 6CU5 Description and Rating sheet for complete data.

12CU6 Beam Pentode. Identical to the 6CU6 except for heater ratings and addition of a controlled heater-warm-up characteristic. Refer to the 6CU6 Description and Rating sheet for complete data.

12D4 Diode. Identical to the 6DA4 except for heater ratings and addition of a controlled heater-warm-up characteristic. Refer to the 6DA4 Description and Rating sheet for complete data.

12DQ6-A Beam Pentode. Identical to the 6DQ6-A except for heater ratings and addition of a controlled heater-warm-up characteristic. Refer to the 6DQ6-A Description and Rating sheet for complete data.

12DQ6-B Beam Pentode. Identical to the 6DQ6-B except for the following ratings:

Heater Voltage, AC or DC	12.6	Volts
Heater Current	0.6 ±6%	Amperes
Heater Warm-up Time*11	Seconds

* The time required for the voltage across the heater to reach 80 percent of its rated value after applying 4 times rated heater voltage to a circuit consisting of the tube heater in series with a resistance equal to 3 times the rated heater voltage divided by the rated heater current.

Refer to the 6DQ6-B Description and Rating sheet for complete data.

The tubes and arrangements disclosed herein may be covered by patents of General Electric Company or others. Neither the disclosure of any information herein nor the sale of tubes by General Electric Company conveys any license under patent claims covering combinations of tubes with other devices or elements. In the absence of an express written agreement to the contrary, General Electric Company assumes no liability for patent infringement arising out of any use of the tubes with other devices or elements by any purchaser of tubes or others.
